

Omega Concrete Sealer Thinners

Production Description

Omega Concrete Sealer Thinners is formulated for the thinning Omega Concrete Sealer Clear and Coloured finishes. The medium evaporation rate of this product can improve application properties for a good finish. Generally used for spray applications. Excellent for use as a clean-up solvent for application equipment

Areas of Application

For the use in thinning Omega Concrete Sealers both Clear and Coloured finishes. As Omega Concrete Sealer is formulated to be ready for use direct from the container, thinning should only be required when applying the first coat on new concrete surfaces and when spraying.

Technical Data

Appearance	Low viscosity, colourless clear liquid
Specific Gravity	0.85
Boiling Range	80-143 °C
Thinning Recommendations	Spray application : 10-15% as required Brush/Roller application: up to 10% as required. Application to concrete (first coat only): 10-15% to assist penetration into surface.
Packs available	1 litre, 4 litre & 20 litres

*Cooler temperature, higher film thickness and higher humidity conditions will require longer drying times

**Practical coverage may depend on surface profile, method of application and losses. Higher film thickness will lead to lower coverage.

Flammability & Transport

- Highly flammable, Dangerous Goods Class 3.2.
- Keep away from heat and flame, eliminate any source of ignition.
- Soak all used cloths and rags immediately in water to prevent self-ignition.
- Provide adequate ventilation during use.
- Keep out of reach of children
- Ensure container is upright with lid secure.
- Ensure the container is secured in the vehicle for transport.

Environmental

- Do not wash painting equipment and allow waste to enter drains and water ways.
- Do not dispose of unwanted paint and thinners that will enter drains and water ways.
- Refer to state / local EPA and council web sites for environmental and safe disposal details.
